Carbon monoxide and carbon dioxide Nitrogen oxides (NOx) 5.3 Advice for firefighters Protective equipment: Wear self-contained breathing apparatus. Wear full protective suit.

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures
Wear protective equipment. Keep unprotected persons away.
Ensure adequate ventilation
6.2 Environmental precautions: Do not allow material to be released to the environment without proper governmental permits.
6.3 Methods and material for containment and cleaning up: Ensure adequate ventilation. **6.6** Reference to other sections See Section 7 for information on safe handling See Section 8 for information on personal protection equipment. See Section 13 for information on disposal. SECTION 7: Handling and storage 7.1 Precautions for safe handling Keep containers tightly sealed. Store in cool, dry place in tightly closed containers. Ensure good ventilation/exhaustion at the workplace. Information about protection against explosions and fires: No information known. 7.2 Conditions for safe storage, including any incompatibilities 7.2 Conditions for sale storage, including any incompatibilities Storage Requirements to be met by storerooms and containers: No special requirements. Information about storage in one common storage facility: Store away from oxidising agents. Store in the dark. Further information about storage conditions: Keep container tinbity saalad Keep container tightly sealed. Store in cool, dry conditions in well sealed containers. Protect from the effects of light. **7.3 Specific end use(s)** No further relevant information available.

SECTION 8: Exposure controls/personal protection

Additional information about design of technical systems: Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute.

8.1 Control parameters

Components with critical values that require monitoring at the workplace: The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace. Additional information: No data

Additional information: No data
8.2 Exposure controls
Personal protective equipment
General protective and hygienic measures
The usual precautionary measures should be adhered to in handling the chemicals.
Keep away from foodstuffs, beverages and food.
Instantly remove any soiled and impregnated garments.
Wash hands during breaks and at the end of the work.
Avoid contact with the eyes and skin.
Maintain an ergonomically appropriate working environment.
Breathing equipment: Use breathing protection with high concentrations.
Protection of hands:
Check protective gloves prior to each use for their proper condition.
The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer.
Material of glove Impervious gloves
Penetration time of glove material (in minutes) Not determined

Penetration time of gloves material (in minutes) Not determined Eve protection: Safety glasses Face protection Pack extention: Distortion work elething

Body protection: Protective work clothing.

	-	
SECTION 9: Physical and chemi	ical properties	
9.1 Information on basic physical an General Information Appearance: Form: Colour:	d chemical properties Crystalline powder or flakes White to pale cream	
Smell: Odour threshold:	Stench Not determined.	
pH-value:	Not applicable.	
Change in condition Melting point/Melting range: Boiling point/Boiling range: Sublimation temperature / start:	94-97 °C 265-268 °C Not determined	
Flash point: Inflammability (solid, gaseous) Ignition temperature: Decomposition temperature: Self-inflammability:	132 °C Not determined. Not determined Not determined.	
Danger of explosion: Critical values for explosion: Lower: Upper: Steam pressure: Density Relative density Vapour density Evaporation rate	Product is not explosive. Not determined Not determined Not determined Not determined. Not deplicable. Not applicable.	
		(Contd. on page 3)

		(Contd. of pag
Solubility in / Miscibility with Water:	Soluble	
Partition coefficient (n-octanol/wat Viscosity:	ter): Not determined.	
dynamic:	Not applicable.	
kinematic: 9.2 Other information	Not applicable. No further relevant information available.	
SECTION 10: Stability and rea	a ti vitu	
SECTION 10: Stability and read 10.1 Reactivity No information know		
10.2 Chemical stability Stable under	r recommended storage conditions. ns to be avoided: No decomposition if used and stored according to specifications.	
10.3 Possibility of hazardous react	tions No dangerous reactions known	
10.4 Conditions to avoid No further 10.5 Incompatible materials:	relevant information available.	
Oxidising agents Light		
10.6 Hazardous decomposition pro Carbon monoxide and carbon dioxide		
Nitrogen oxides (NOx)	~	
SECTION 11: Toxicological inf	ormation	
11.1 Information on toxicological e	effects ceffects of Chemical Substances (RTECS) contains acute toxicity data for this substance.	
LD/LC50 values that are relevant for	or classification:	
Oral LD50 3450 mg/kg (rat)		
Skin irritation or corrosion: Causes Eye irritation or corrosion: Causes	serious eye irritation.	
Sensitization: No sensitizing effect I Germ cell mutagenicity: The Regis	known. try of Toxic Effects of Chemical Substances (RTECS) contains mutation data for this substance.	
	ata on carcinogenic properties of this material is available from the EPA, IARC, NTP, OSHA or ACGIH.	
Specific target organ system toxic	ity - repeated exposure: No effects known.	
Aspiration hazard: No effects know	ity - single exposure: May cause respiratory irritation. n.	
Other information (about experime Subacute to chronic toxicity: No et	ental toxicology): Mutagenic effects have been observed with human fibroblast. ffects known.	
	n: To the best of our knowledge the acute and chronic toxicity of this substance is not fully known.	
SECTION 12: Ecological inform	nation	
12.1 Toxicity Aquatic toxicity: No further relevant	information quailable	
12.2 Persistence and degradability	No further relevant information available.	
12.4 Mobility in soil No further relev	further relevant information available. ant information available.	
Additional ecological information: General notes:		
	to the environment without proper governmental permits.	
Do not allow undiluted product or lard	ge quantities to reach ground water, water course or sewage system.	
Avoid transfer into the environment. 12.5 Results of PBT and vPvB ass	essment	
PBT: Not applicable.		
vPvB: Not applicable. 12.6 Other adverse effects No furth	er relevant information available.	
SECTION 13: Disposal conside	erations	
13.1 Waste treatment methods Recommendation		
Hand over to disposers of hazardous	waste	
Must be specially treated under adhe Consult state, local or national regula	ations for proper disposal.	
Uncleaned packagings: Recommendation: Disposal must be	e made according to official regulations.	
Recommended cleaning agent: Wa	ater, if necessary with cleaning agent.	
SECTION 14: Transport inform	nation	
UN-Number ADR, ADN, IMDG, IATA	Not applicable	
14.2 UN proper shipping name ADR, ADN, IMDG, IATA	Not applicable	
14.3 Transport hazard class(es)		
ADR, ADN, IMDG, IATA Class	Not applicable	
Packing group ADR, IMDG, IATA		
ADR, IMDG, IATA 14.5 Environmental hazards:	Not applicable Not applicable.	
14.6 Special precautions for user	Not applicable.	
14.7 Transport in bulk according to	o Annex II of MARPOL73/78 and the IBC	
Code UN "Model Regulation":	Not applicable.	

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture Australian Inventory of Chemical Substances Substance is listed. Standard for the Uniform Scheduling of Drugs and Poisons Substance is not listed.

(Contd. on page 4)

(Contd. of page 3)

DF

National regulations

Information about limitation of use: Employment restrictions concerning young persons must be observed. For use only by technically qualified individuals.

Water hazard class: Water hazard class 1 (Self-assessment): slightly hazardous for water. Other regulations, limitations and prohibitive regulations ELINCS (European List of Notified Chemical Substances) Substance is not listed. Substance of Very High Concern (SVHC) according to the REACH Regulations (EC) No. 1907/2006. Substance is not listed. The conditions of restrictions according to Article 67 and Annex XVII of the Regulation (EC) No 1907/2006 (REACH) for the manufacturing, placing on the market and use must be observed. the market and use must be observed. Substance is not listed. Annex XIV of the REACH Regulations (requiring Authorisation for use) Substance is not listed. 15.2 Chemical safety assessment: A Chemical Safety Assessment has not been carried out.

SECTION 16: Other information

Employers should use this information only as a supplement to other information gathered by them, and should make independent judgement of suitability of this information to ensure proper use and protect the health and safety of employees. This information is furnished without warranty, and any use of the product not in conformance with this Material Safety Data Sheet, or in combination with any other product or process, is the responsibility of the user.
