Aaron Chemistry GmbH

SAFETY DATA SHEET

According to 1907/2006/EC, Article 31

Re	evision number: 13 Revision date: 06/27/2017
SECTION 1: Identification of the s	ubstance/mixture and of the company/undertaking
1.1 Product identifiers	
Product name:	1-BOC-piperidine-4-carboxaldehyde, Bertagnini salt
Product code:	52307
1.2 Belevant identified uses of the sub	stance or mixture and uses advised against
Identified uses:	Reagents
1.3 Details of the supplier of the safety	/ data sheet
Supplier: Aaron Chemistry Gmb	oH State Sta
Am Fischweiher 41-43	
82481 Mittenwald	Aaron CHEMISTRY
Germany	ORGANIC CHEMISTRY
Telephone: +49-8823-9	917521
Fax: +49-8823-91752	
email: info@aaron-chemi	istry.de
1.4 Emergency tele	phone number :+49-8823-917521
SECTION 2: Hazards identification	
2.1 Classification of the substance or PHYSICAL HAZARDS	mixture Not classified
	Not classified
HEALTH HAZABUS	Category 2
HEALTH HAZARDS Skin corrosion/irritation	Calegory 2
Skin corrosion/irritation Serious eye damage/eye irritatio	on Category 2

SECTION 4: First aid measures	
4.1 Description of first aid measures	

Inhalation:	Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical advice/attention if you feel unwell.
Skin contact:	Remove/Take off immediately all contaminated clothing. Gently wash with plenty of soap and water. If skin irritation or rash occurs: Get medical advice/attention.
Eye contact:	Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.
Ingestion:	Get medical advice/attention if you feel unwell. Rinse mouth.
Protection of first-aiders:	A rescuer should wear personal protective equipment, such as rubber gloves and air-tight goggles.

4.2 Most important symptoms and effects, both acute and delayed No data available

4.3 Indication of any immediate medical attention and special treatment needed No data available

SECTION 5: Firefighting measures	
5.1 Extinguishing media	
Suitable extinguishing media:	Dry chemical, foam, water spray, carbon dioxide.
5.2 Special hazards arising from the substance or mixture	Take care as it may decompose upon combustion or in high temperatures to generate poisonous fume. Carbon monoxide, Carbon dioxide, Nitrogen oxides (NOx)
5.3 Advice for firefighters	Fire-extinguishing work is done from the windward and the suitable fire-extinguishing method according to the surrounding situation is used. Uninvolved persons should evacuate to a safe place. In case of fire in the surroundings: Remove movable containers if safe to do so. When extinguishing fire, be sure to wear personal protective equipment.
SECTION 6: Accidental release meas	ures
6.1 Personal precautions, protective equipment and emergency procedures	Use personal protective equipment. Keep people away from and upwind of spill/leak. Entry to non-involved personnel should be controlled around the leakage area by roping off, etc.
6.2 Environmental precautions	Prevent product from entering drains.
6.3 Methods and materials for containment and cleaning up	Sweep dust to collect it into an airtight container, taking care not to disperse it. Adhered or collected material should be promptly disposed of, in accordance with appropriate laws and regulations.
6.4 Reference to other sections	For disposal see section 13.
SECTION 7: Handling and storage	
7.1 Precautions for safe handling	Handling is performed in a well ventilated place. Wear suitable protective equipment. Prevent dispersion of dust. Wash hands and face thoroughly after handling.Use a local exhaust if dust or aerosol will be generated. Avoid contact with skin, eyes and clothing.
7.2 Conditions for safe storage, including any incompatibilities	Keep container tightly closed. Store in a refrigerator. Store under inert gas. Protect from moisture. Store away from incompatible materials such as oxidizing agents. Heat-sensitive, Light-sensitive, Moisture-sensitive
7.3 Specific end use(s)	No further relevant information available.
SECTION 8: Exposure controls/perso	onal protection
8.1 Control parameters	No data available
8.2 Exposure controls	Install a closed system or local exhaust as possible so that workers should not be exposed directly. Also install safety shower and eye bath.
Respiratory protection: Hand protection: Eye protection: Skin and body protection:	Dust respirator. Follow local and national regulations. Protective gloves. Safety glasses. A face-shield, if the situation requires. Protective clothing. Protective boots, if the situation requires.

SECTION 9: Physical and chemical properties 9.1

9.1 Information on basic physical and chemical properties		
Physical state (20°C): Form: Colour: Odour: pH: Melting point/freezing point: Boiling point/range: Flash point: Flammability or explosive limits:	Solid Solid-Crystal- Powder White -to pale yellow No data available No data available No data available No data available No data available	
Lower:	No data available	
Upper:	No data available	
Relative density:	No data available	
Solubility(ies):		
[Water]	No data available	
[Other solvents]		
Soluble:	Water	
Partition coefficient: n-	No data available	
octanol/water: Autoignition temperature:	No data available	
Decomposition temperature:	No data available	
Dynamic Viscosity:	No data available	
Kinematic viscosity:	No data available	
······		
9.2 Other safety information	The product is a liquid when ambient temperature is above melting point or due to supercooling.	
SECTION 10: Stability and reactivity		
10.1 Reactivity	No data available	
10.2 Chemical stability	Stable under proper conditions.	
10.3 Possibility of hazardous reactions	No special reactivity has been reported.	
10.4 Conditions to avoid	No data available	
10.5 Incompatible materials	Oxidizing agents	

10.6 Hazardous decomposition products Carbon monoxide, Carbon dioxide, Nitrogen oxides (NOx)

SECTION 11: Toxicological information 11.1 Information on toxicological effects

Acute Toxicity: Skin corrosion/irritation: Serious eye damage/irritation: Germ cell mutagenicity: Carcinogenicity:

Reproductive toxicity:

*We judged that this product was not classified into Class6.1 Toxic Substance of current edition of IATA Dangerous Goods Regulations(DGR) according to acute toxicity values and/or Quantitative Structure-Activity Relationship(QSAR).

SECTION 12: Ecological information 12.1 Toxicity

Fish: Crustacea: Algae:	No data available No data available No data available
12.2 Persistence and degradability	No data available
12.3 Bioaccumulative potential	No data available
12.4 Mobility in soil Log Pow: Soil adsorption (Koc): Henry's Law constant(PaM ³ /mol):	No data available No data available No data available

Page 3 of 4

12.5 Results of PBT and vPvB assessment	
PBT:	Not applicable
vPvB:	Not applicable

12.6 Other adverse effects

No data available

SECTION 13: Disposal considerations

13.1 Waste treatment methods

Recycle to process, if possible. Consult your local regional authorities. You may be able to dissolve or mix material with a combustible solvent and burn in a chemical incinerator equipped with an afterburner and scrubber system. Observe all federal, state and local regulations when disposing of the substance.

SECTION 14: Transport information 14.1 UN number Not listed 14.2 UN proper shipping name ADR/RID Not listed IMDG/IMO Not listed ICAO/IATA Not listed 14.3 Transport hazard class(es) Does not correspond to the classification standard of the United Nations ADR/RID Does not correspond to the classification standard of the United Nations IMDG/IMO Does not correspond to the classification standard of the United Nations ICAO/IATA 14.4 Packaging group ADR/RID IMDG/IMO ICAO/IATA 14.5 Environmental hazards Marine pollutant 14.6 Special precautions for user No data available

This substance is not regulated by IATA/ICAO/ARD/RID/IMO/IMDG and is considered to be Non Hazardous for transport by Air/Rail/Road/Sea

SECTION 15: Regulatory information 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture Substance of Very High Concern (SVHC) according to the REACH Regulations (EC) No.1907/2006 Not listed 15.2 Chemical safety assessment A chemical safety assessment has not been carried out.

SECTION 16: Other information	
Prepared by:	Aaron Chemistry GmbH
Issue date:	06/27/2017

This SDS was prepared sincerely on the basis of the information we could obtained, however, any warranty shall not be given regarding the data contained and the assessment of hazards and toxicity. To the best of our knowledge, the chemical, physical, and toxicological properties have not been thoroughly investigated. Prior to use, please investigate not only the hazards and toxicity information but also the laws and regulations of the organization, area and country where the products are to be used, which shall be given the first priority.

The products are supposed to be used promptly after purchase in consideration of safety. Some new information or amendments may be added afterwards. If the products are to be used far behind the expected time of use or you have any questions, please feel free to contact us. The stated cautions are for normal handling only. In case of special handling, sufficient care should be taken, in addition to the safety measures suitable for the situation. All chemical products should be treated with the recognition of "having unknown hazards and toxicity", which differ greatly depending on the conditions and handling when in use and/or the conditions and duration of storage. The products must be handled only by those who are familiar with specialized knowledge and have experience or under the guidance of those specialists throughout use from opening to storage and disposal. Safe usage conditions shall be set up on each user's own responsibility.
